

HAPPY THANKSGIVING

News from the Lab

What's new

- Welcome Travis Lorsung to replace Vicki Terpstra
- Stearns DHIA water lab closure
- RMB Labs to support DHIA service areas.
- Third Party sample collection services to continue

Congratulations to Vicki Terpstra

Retirement after 31 dedicated years

RMB labs congratulates and thanks Vicki Terpstra for her 31 years of dedication to the laboratory and sample collection service industry. It has been a pleasure working with both DHIA Laboratories and Vicki during her transition to retirement and we all thank her for her commitment and efforts in passing the torch to the new territory representative Travis Lorsung.

Welcome Travis Lorsung as Vicki Terpstra's replacement in Eastern MN

Travis Lorsung from RMB labs will be fulfilling Vicki Terpstra's role in Eastern MN by providing third party sample collection services. As added convenience, Vicki's phone number will remain a constant and now be answered by Travis. He is presently taking requests and servicing water test orders. Travis is a local resident to Mora MN, is knowledgeable in the industry, and is committed to supporting clients throughout Eastern MN by basing sample collection services out of both Mora and Cambridge areas.

DHIA—Stearns Water Lab Closure RMB to provides services

Effective Nov 8th the water lab at Stearns DHIA in Sauk Centre discontinued its certified water testing services. Since Mid Oct, RMB has supported DHIA and its clients as they made the decision and transition to discontinue their state certified water lab. Collectively both DHIA and RMB have made effects to contact DHIA's valued clients to ensure services are offered via RMBs network of laboratories, distribution centers and couriers in MN.

"RMB offer it's 24 years of state certified laboratory and field collection services to clients throughout MN and ND. Supported by its network of labs in Detroit Lakes, Bloomington and Hibbing MN.

If you are in need of water testing or third party sampling services, please contact Travis Lorsung at:
