Any additional parameters will not be run unless a separate chain of custody is received with the sample.</p> <p>EXAMPLE: Chloride; 5 times this summer</p> <p>_____</p> <p>_____</p> <p>_____</p>

I would like to purchase an integrated sampler for \$50, plus shipping: YES NO

We will ship your cooler with all the supplies for sampling needed for the first sampling date to the volunteer's address listed above. **All coolers will be shipped between April 22nd and May 15th.**

This schedule is flexible, so please let us know if you would like to receive your cooler outside of this time frame.

Sample Shipment:

EZR: Is a program through Spee-Dee Delivery that allows you to call for a cooler pick-up right from your door step. RMB can generate your shipping labels at the beginning of the year, and then you place them on the cooler when you are ready to ship it. Please send my EZR tags and instructions for how to use them with my first cooler. Shipping this method is \$15 per cooler, please include an additional \$75 with this form to cover summer shipping costs, if prepaying. RMB will ship your cooler back to you for free.

RMB Courier: I would like to learn about the option of using the RMB courier drop off sites. Please contact me with more information. Shipping this method is \$15 per cooler, please include an additional \$75 to cover summer shipping if prepaying.

I plan to ship or drop off my cooler on my own.

<u>Lab Use Only:</u>	Pre-Invoice Generated: <input type="checkbox"/> Yes <input type="checkbox"/> No
Prepayment Received on: Date: ____/____/____	End of Year Invoice Generated: <input type="checkbox"/> Yes <input type="checkbox"/> No
