

2022 RMB Holiday Policy for Courier Service

Dear Valued RMB Client,

To assist with your annual planning, we would like to confirm our holiday operations arrangement for the 2022 year. In observance of some public holidays, our courier service will not be available on the dates shown below.

The general policy will be no RMB courier services on most major holidays. Because samples transported via RMB courier are processed for laboratory intake the morning after pick-up, our courier service will not be available on the business day immediately preceding those holidays when RMB labs are closed.

Upon request, RMB clients may have Spee-Dee Delivery Service “call tags” arranged for delivery on those days on which the RMB lab is open, but no courier services are running. If you wish to utilize Spee-Dee Delivery for shipping samples to reach the lab on any of those dates, please call RMB two business days in advance of your sample date to request a call tag.
